The California Dawn is captained by second generation charter operator Captain James Smith Jr., who has been fishing the San Francisco Bay Area since 1985 and is US Coast Guard Certified to 100 Miles. Captain James' knowledge of the bay, along with his experienced and friendly crew, will guarantee everyone the ultimate fishing experience.

The California Dawn is a Fast 50 Foot Fiberglass boat powered by twin diesel engines, featuring the latest in marine electronics. Scanning sonar, a heated cabin, full electric galley for hot meals, and complete restroom facilities make the California Dawn one of the most comfortable fishing charters available.

More importantly, the boat's large bait capacity and live well, along with the availability of fishing licenses, bait and tackle on-board, make fishing on the California Dawn easy and enjoyable.
